

SHORELAND DESCRIPTIONS

Natural Environment Lakes usually have less than 150 total acres, less than 60 acres per mile of shoreline, and less than three dwellings per mile of shoreline. They may have some winter kill of fish; may have shallow, swampy shoreline; and are less than 15 feet deep.

Recreational Development Lakes usually have between 60 and 225 acres of water per mile of shoreline, between 3 and 25 dwellings per mile of shoreline, and are more than 15 feet deep.

General Development Lakes usually have more than 225 acres of water per mile of shoreline and 25 dwellings per mile of shoreline, and are more than 15 feet deep.

ABOUT US

Founded in 1974, Oak Realty is the area's oldest real estate brokerage. We operated on Oak Avenue (Annandale's Main Street) for many years, and made the move to our current location on Highway 55 in 1996. In 2007, Oak expanded into Maple Lake and our staff continues to grow. Among us are local graduates, former local business owners, lake association presidents, and community volunteers. We all love the Annandale Area and know it well. If you're interested in buying or selling in the Heart of the Lakes, we welcome the opportunity to be your guide.

For more area information, photos, maps, community links, staff bios and all things local real estate including open house information and the area's only daily hot list, visit our web site at:
